## REMARKS

The figures of births and deaths shown in this statement for week ending the 31st March, 1956, relate to 191 towns with an estimated population of 25,091 thousands. The total number of towns is 317 and their population is 41,516 thousands. Thus 60% of the total number of towns representing 60% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 12,881 and 5,593 representing birth and death rates of 26.7 and 11.6 per thousand of population respectively.

(a) *States (Part A and C)*.—The data here relate to 158 towns with an estimated population of 20,997 thousands. Information about Bihar, Bombay, and Madhya Pradesh could not be included. The total number of towns is 252 and their population is 33,432 thousands. Thus 63% of the total number of towns representing 63% of the total population is covered.

The number of births and deaths recorded in these towns were 11,133 and 4,815 representing birth rates and death rates of 27.6 and 11.9 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B)*.—The data here relate to 33 towns with an estimated population of 4,094 thousands. The total number of towns is 65 and their population is 8,084 thousands. Thus 51% of the total number of towns representing 51% of the total population is covered. The number of births and deaths recorded in these towns were 1,748 and 778 representing birth and death rates of 22.2 and 9.9 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
